Work Experience

Junior Software Developer • Digia Plc

March 2023 - Present

Digia is a Finnish SaaS company that provides Financial Solutions to clients. My main responsibilities at the company are to develop and maintain the software according to the customers' requirements. I contributed to building new features on both the web and the desktop platform.

Education

Metropolia University of Applied Sciences
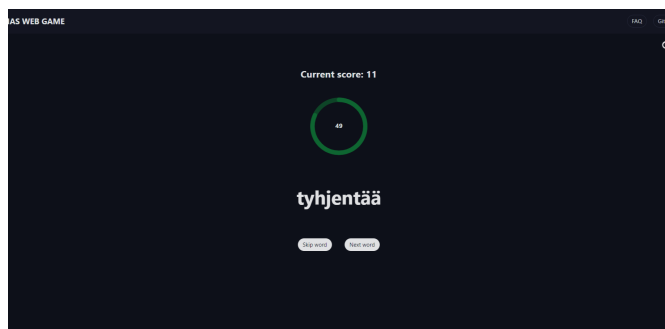

Information Technology

2020 - 2024

Phu Nhuan High School

Junior High/Intermediate/Middle School Education and Teaching

2018 - 2020

Projects

Alias Web Game

This was my thesis project. A word-guessing web-game modeled after the Finnish Alias game. This is currently being used in teaching courses at Metropolia UAS.

Personal Webpage

This is a personal website that I created during my free time. Most of my projects are on display here, and I do some blogging as well.
